

Stephanie Dixon, MD, MPH

Stephanie Dixon is an Assistant Member in the Division of Cancer Survivorship at St. Jude Children's Research Hospital (SJCRH), Memphis, Tennessee. Dr. Dixon received her medical degree from the University of Michigan College of Medicine and completed a combined internal medicine and pediatrics residency at the University of Cincinnati. She then pursued a fellowship in pediatric hematology/oncology at SJCRH and an additional year of training in childhood cancer survivorship. During fellowship, she completed a Master's degree in Public Health. She joined the faculty at SJCRH in the Division of Cancer Survivorship where she specializes in the care of childhood cancer survivors as well as children newly diagnosed with Hodgkin and non-Hodgkin lymphomas. Dr. Dixon's clinical research focuses on late health outcomes after childhood cancer treatment including late mortality in survivors as well as chronic conditions that may be targeted to prevent or mitigate late-effects of cancer therapy.
